

5400TW

TWO NEEDLE 18" LONG ARM, WALKING FOOT

For medium to heavy weight fabric that requires a longer bed plate and two needles, we recommend the 5400TW with top and bottom feed a high-pressure foot lift and a longer stitch length.

For sewing leather, upholstery, canvas, and synthetics, the 5400TW with safety clutch, drop in bobbin and automatic oiling offers the whole package. Low noise and vibration design, outstanding build quality and reliability.
