

7200SB

DIRECT DRIVE BLIND STITCH

The 7200SB is the sewing industry's benchmark for excellence when productivity, durability, and stitch quality are your requirements. Skip stitch and adjustable stitch penetration allow you to fine tune from fine silks up to medium weight woolsens.

For hemming pants, skirts and dresses, the 7200SB with direct-drive technology and "thread nipping device" (to allow easier removal of the hemmed fabric) offers a smoother, more precise sewing experience with outstanding build quality and reliability.

SPECIFICATIONS

ELECTRICAL	110V/120V / 60hz	
MAXIMUM SEWING SPEED	2,500 RPM
